

CYCLADES

Sunset in Oia and traditional villages

Our first visit will be at the oldest church on the island 'Panagia Episkopi' built during the rule of Byzantine Emperor Alexios Komninos in 11th century A.D. Next

we visit Mesa Gonia- the "ghost" village, there you will be offered one tomato ball and one glass of wine and then drive to the village of Pyrgos; a traditional village with Cycladic architecture, Byzantine churches and a Venetian castle. On our way to Oia, we stop at the idyllic village Imerovigli to enjoy the most wonderful view of the

caldera. There we also find Skaros, a grand rock, the remnant of the most important castle. Our last stop is the breathtaking Oia village. Oia is famous for being the place of gathering artists, who are inspired by the beauty of the landscape and the magnificent purple sunsets.

Caldera Boat Tour

We go by bus to Athinios port where we board on the boat King Thiras that will sail to reach the lava islet Nea Kameni. We will walk an ascending soil path to approach the crater of the still active Volcano. Then back to the boat and we sail to the second lava islet called Palea Kameni where we find Hot Springs. Here you will have an opportunity to swim in the green sulphur waters. We then set sail for the island of Thirassia. There you can explore the island or swim at the beach next to the port. We stay for about two hours and then the boat will cruise along the caldera cliffs, so you will have the chance to take wonderful photos of the amazing cliffs.

Sunset and magic night in Caldera

Arriving at Athinios port, you will be welcomed on board by the captain and the crew. You enjoy a welcome drink & watch the changing colours of the sunset. The captain will set sail for a cruise along the magnificent Caldera while the crew prepares a delicious buffet dinner that you will savor during the cruise.
